

Programming using **C**

Highlights 01:: ASCII table

```
/* to print character using ASCII */  
  
#include <stdio.h>  
  
#include <conio.h>  
  
main()  
{  
  
    printf("\ncharacter =\x41");  
    printf("\ncharacter = A");  
    printf("\ndigit = \x39");  
    printf("\ncharacter = \xc9");  
    printf("\ncharacter = \xcd");  
    getche();  
  
}
```
