

Programming using C

Highlights 03:: Increment Decrement

```
#include <stdio.h>

#include <conio.h>

main()

{

    int num = 30, num1, x = 39, y;

    y = x++ - 10;

    printf("\n x = %d", x);

    printf("\n y = %d", y);

    num1 = ++num - 10;

    printf("\n num = %d", num);

    printf("\n num1 = %d", num1);

    getch();

}
```
