

Programming using C

Highlights 10:: For loop to average some numbers

```
#include <stdio.h>

#include <conio.h>

main()
{
    int i;
    float x,sum = 0,av;
    for(i=1;i<=3;i++)
    {
        printf("\nScore %d: ",i);
        scanf("%f",&x);
        sum = sum +x;
    }
    av = sum/3;
    printf("Mean value: %f",av);
    getch();
}
```
