

Programming using C

Highlights 16:: For Loop to print out number square cube from start to stop

```
#include <stdio.h>

#include <stdlib.h>

main()

{

    int i;

    int F,L;

    printf("\nFirst:Second? ");

    scanf("%d:%d",&F,&L);

    printf("Nummber\tSquare\tCube");

    for(i=F;i<=L;i++)

    {

        printf("\n%d\t%d\t%d",i,i*i,i*i*i);

    }

    getch();

}
```
