

Programming using C

Highlights 17:: For Loop to print out number square cube

```
#include <stdio.h>

#include <stdlib.h>

#include <math.h>

main()

{

    int i;

    float x;

    for(i=0;i<5;i++)

    {

        printf("\nNumber: ");

        scanf("%f",&x);

        printf("\nNumber\t\tSquare\t\tCube");

        printf("\n%f\t%f\t%f",x,pow(x,2),pow(x,3));

    }

    getch();

}
```
