

Programming using C

Highlights 28:: If statement —working good

```
#include <stdio.h>
#include <stdlib.h>

main()
{
    float score;
    printf("Your score: ");
    scanf("%f",&score);
    if(score>=50)
    {
        printf("\nPass");
    }
    if(score<50)
    {
        printf("\nfail");
    }
}
```
