

Programming using C

Highlights 32:: If statement — count how many positive number

```
#include <stdio.h>
#include <stdlib.h>
main()
{
    int i,n,np = 0;
    float x;
    printf("# Numbers: ");
    scanf("%d",&n);
    for(i = 0;i<n;i++)
    {
        printf("\nNumber: ");
        scanf("%f",&x);
        if(x>0)
        {
            np = np +1;
        }
    }
    printf("\nNumber of positive numbers: %d",np);
}
```
