

Programming using C

Highlights 33:: If statement — sum up positive numbers

```
#include <stdio.h>
#include <stdlib.h>
main()
{
    int i,n;
    float x,sp = 0;
    printf("# Numbers: ");
    scanf("%d",&n);
    for(i = 0;i<n;i++)
    {
        printf("\nNumber: ");
        scanf("%f",&x);
        if(x>0)
        {
            sp = sp +x;
        }
    }
    printf("\nsum of positive numbers: %f",sp);
}
```
