

Programming using C

Highlights 35:: If statement — Zoo ticket

```
float age, cost, t = 0;
printf("\nage: ");
scanf("%f", &age);
while( age != 0)
{
    t = 0;
    if(age<=2)
        t = 0;
    if(age>2 && age <12)
        t = 14;
    if(age>=12)
        t = 18;
    cost = cost + t;
    printf("\nage: ");
    scanf("%f", &age);
}
printf("admission cost:%f", cost);
```
